OFFICE OF TECHNICAL SERVICES
Donald A. Schon, Director

Issued twice a month. Annual subscription $12 ($4 additional for foreign mailing). Single copy 60 cents. Make remittance payable to Superintendent of Documents and mail either to a Department of Commerce field office or to Superintendent of Documents, U. S. Government Printing Office, Washington, D.C. 20402. Address changes should be sent to Superintendent of Documents.

Contents may be reprinted freely. Mention of source will be appreciated.

Use of funds for printing this publication approved by the Director of the Bureau of the Budget, November 22, 1961

TECHNICAL TRANSLATIONS is published in cooperation with the Special Libraries Association Translations Center to list translated technical literature available from the Office of Technical Services, the Library of Congress, the Special Libraries Association, European Translations Center, other cooperating foreign governments, commercial translators, publishers, universities, and other sources.

The Special Libraries Association is responsible for collecting translations from non-Government sources, both domestic and foreign; the Office of Technical Services for collecting translations from both U.S. and foreign government sources since 1940.

The material available from the Office of Technical Services generally has been translated by other agencies of the Government and by private organizations and turned over to OTS for reproduction and distribution. OTS assumes no responsibility for the accuracy of the translations.

OTS provides reference service for the location and identification of translated materials, both completed translations and translations in process.

NOTICES TO SUBSCRIBERS

New OTS Pricing

A new OTS standard pricing schedule has been adopted. The new prices, which became effective with the October 15, 1964 issue, apply only to translations acquired and sold by the Office of Technical Services and in general are 1/3 lower than the average previous process. Prices for documents acquired and sold by other sources are not affected.

OTS has changed also its system of microphotography from microfilm to microfiche (a unitized sheet form of microphotography). Most Government agencies are converting because microfiche has many advantages over microfilm. It can be produced faster and at less cost, disseminated rapidly, filed and stored easily.

OTS will use the International Standard size of microfiche sheet of 105 mm. x 148 mm. (approximately 4" x 6"). Image size will be generally an 18:1 reduction.

Beginning with the October 15, 1964 issue, documents available from OTS list a hard copy price (indicated by the letters "HC") and when microfiche is available, a microfiche price (indicated by the letters "MF") is also given. The prices given reflect the new pricing schedule where appropriate.

Special Literature Searching Fee Increased

Effective October 1, 1964, the fee for Special Literature Searches by the Office of Technical Services and the Science and Technology Division, Library of Congress, was increased from $8 per hour to $11 per hour of searching time. The increase is necessary to permit the agencies to recover the actual costs of these searches.

The Special Literature Searching Service is a subscription-type service to provide subscribers with bibliographic information tailored to their specifications. For information on this service, write to OTS, U. S. Department of Commerce, Washington, D. C., 20230.

HOW TO ORDER TRANSLATIONS

The translations reported in this issue are arranged under the categories indicated in the Contents. The sub-groups of the categories are flexible and used only when there are several translations in a particular sub-group. When the subject of a sub-group is not included in the Contents, reference should be made to the general category into which it falls.

References to sources of original text are given as they appear on the translation, with sufficient editing to assure uniformity in citations.

Some of the translation notes for individual translations have been marked with the symbol (#) preceding the name of the journal. This symbol indicates that the particular journal is also translated cover-to-cover.

Listed below are agencies from which translations may be purchased. Each entry in the Technical Translations indicates by symbol the agency from which the translation should be ordered, the cost of the translation (if known), and the number by which the translation may be ordered, if such a number exists. Make check or money order payable to the agency indicated.

CONTENTS

		PAGE	RUSS. PAGE
Diffraction in Open Resonators and Open Waveguides with Plane Mirrors. L. A. Vainshtein	(T)	157	193
Open Resonators with Cylindrical Mirrors. L. A. Vainshtein	(T)	166	205
Investigation of the Influence of External Effects on the Phase Oscillations of Accelerated Particles. V. A. Bertulis	(T)	175	218
Investigation of Phase Oscillations of Accelerated Particles by the Method of Harmonic Linearization. V. A. Bertulis	(T)	181	220
Weakly Damped Plasma Waves. V. P. Silin	(T)	188	236
Effect of Finite Electrical Conductivity on the Stability of a Plasma Confined by a Magnetic Field. S. S. Moiseev and R. Z. Sagdeev	(T)	196	248
Magnetosonic Waves in a Nonisothermal Plasma. A. V. Bogdanov	(T)	201	254
Kinetic Instability in a Magnetic Field. R. V. Polovin	(T)	205	259
Volume Recombination in the Presence of Ambipolar Diffusion in a Gas-Discharge Plasma. V. I. Solunskii and B. L. Timan	(T)	207	262
On the Equilibrium of a Plasma in a Space-Periodic Magnetic Field. R. A. Demirkhanov, T. I. Gutkin, and T. R. Soldatenkov	(T)	210	266
Investigation of Fluctuation in Spectral Line Intensity in a Toroidal Discharge with a Weak Magnetic Field. V. G. Avering, M. A. Mazing, and A. I. Pisanko	(E)	212	269
Ordered Motion of Particles on the Alpha Thermonuclear Machine. S. A. Bel'skii	(E)	215	272
The Motion of Dense Plasmoids in the Magnetic Field of a Toroidal Solenoid. V. S. Voitsenya, A. G. Gorbanyuk, I. N. Onishchenko and B. G. Safronov	(E)	221	280
Anomalous Departure from the Hull Cut-Off Condition in Strong Crossed Fields. M. M. Butusov and S. A. Fridrikhov	(E)	227	287
Multipactor Discharge and Ways of Supressing It. B. A. Zager and V. G. Tishin	(T/E)	234	297
Longitudinal Stability of a Charged-Particle Beam in Quasistationary Processes in Cyclic Accelerators. V. K. Grishin	(T)	242	307
Concerning the Energy Spectrum of Protons in a Linear Accelerator. A. B. Kuznetsov	(T)	245	311
The Theory of a Magnetic Quadrupole System for Producing Pure μ-Meson Beams of Variable Energy. N. K. Abrosimov, D. M. Kaminker, I. A. Petrov, and S. G. Sherman	(T)	246	313
Vertical Focusing of an Electron Beam by Cylindrical Magnetic Lenses with Axially Symmetric Radially Increasing Magnetic Field. V. M. Kelman, S. I. Levchenko, I. D. Luzyanin, and B. P. Peregud	(E)	252	321

U.S. DEPARTMENT OF COMMERCE FIELD OFFICES

SERVE THE BUSINESS COMMUNITY

The Department of Commerce maintains Field Offices to enable the business community to avail itself locally of Government facilities designed to promote commerce. Working closely with various units in the Department and, when necessary, with other Government agencies, the Field Offices provide business services to manufacturers, wholesalers, retailers, trade publications, trade associations, advertising agencies, research groups, financial institutions, and exporters and importers.

Experienced personnel will gladly assist in the solution of specific problems, explain the scope and meaning of regulations administered by the Department, and provide practical assistance in the broad field of domestic and foreign commerce. Field Offices act as official sales agents of the Superintendent of Documents, and maintain an extensive business reference library containing periodicals, directories, publications and reports from official as well as private sources.

Among the many services which businessmen have found of value are:

GENERAL

- Management and business aids
- Establishing a new business

BASIC ECONOMIC DATA

- Census data with national and often State and regional breakdowns, on manufacturing wholesaling, retailing, service industries, employment and unemployment, population, housing, agriculture
- Basic records of national income and product, regional trends, balance of payments, foreign aid

MARKETING AND DISTRIBUTION

- Development and maintenance of markets
- Distribution channels, facilities and services
- Marketing and distribution statistics

PRODUCTION

- Modernization of plant processes and other technological aids
- Development of new products
- Government-owned patents for free license
- Commodity standards

FOREIGN TRADE AND INVESTMENT

- Tariff and exchange regulations
- Import and export quotas, licensing regulations
- Statistics on imports and exports
- Investment and trade opportunities abroad
- Economic conditions in foreign countries

COOPERATIVE OFFICES

To make the services of the Department of Commerce more widely available, agreements have been entered into with more than 750 Chambers of Commerce, Manufacturers Associations, and similar business groups under which these organizations have become official Cooperative Offices of the Department. If specific information is not on hand in the Cooperative Office, your problem will be referred to the nearest Departmental field office.
